**WORK EXPERIENCE**

**Dukapaq Limited**

Full-Stack Developer

Remote

April 2023 – Present

- Focused on building and managing APIs, utilizing Node.js and Express.js to design and implement robust, scalable RESTful services.
- Specialized in backend development, creating and maintaining server-side logic. Leveraged Django's ORM and PostgreSQL to streamline data management and utilized built-in security features to ensure reliable and secure applications.
- Developed dynamic, interactive web interfaces, creating reusable components that optimized rendering speed and incorporated state management solutions to ensure efficient data flow.
- Integrated automated testing into CI/CD pipelines and utilized GitHub Actions, Docker, Jenkins, Kubernetes, Microservices Architecture, and AWS (EC2, RDS, S3, CloudWatch).

**Dukapaq Limited**

Mobile Developer

Remote

Aug 2022 – Mar 2023

- Integrated APIs and third-party services into mobile applications.
- Collaborated with product designers, and backend developers to define, design, and transform wireframes and design mockups into efficient, maintainable, and user-friendly code for iOS and Android platforms.
- Led the development of cross-platform mobile applications using Flutter, delivering responsive, high-performance user interfaces for both iOS and Android.

**EDUCATION**

**ALX**

Data Science

Remote

Jan 2025 – Ongoing

**Power Learn Project**

Mobile Development

Remote

Feb 2024 – June 2024

**Andela React Learning Program**

Front-End Engineering

Remote

August 2023 – Oct 2023

**ALX SE**

Full-Stack Software Engineering,

Remote

August 2022 – Oct 2023

**Machakos University**

Bachelor of Commerce

Machakos, Kenya

Sept 2014 – Dec 2017

---

**SKILLS**

Languages: JavaScript | TypeScript | Python | Dart | HTML5 | CSS3  
Frameworks: Node.js | React | Express.js | GraphQL | Rest API | Django | Flask | Flutter | Tailwind  
Databases: SQL | PostgreSQL | MongoDB | MySQL | Redis | Firebase  
DevOps: Docker | AWS | Kubernetes | GitHub Actions | Jenkins | Nginx | CI/CD | Microservices | Jenkins  
API Security: SQL injection | CSRF | XSS | Securing APIs  
Testing: Manual Testing | Automated Testing | Unit tests | Integration tests | Pytest | Jest | Mocha | Cypress  
Additional: Networking (TCP/IP) | Troubleshooting | System Debugging
